Your Comments:

#1. Please extend the comment period by 180 days to allow more thoughtful analysis of the proposal.

#2. The superfund site provides a disproportionate hardship for minorities and low income peoples of the Portland metro area. The river is an historic food source and recreation area. The polluted site endangers the health of our less fortunate members of our community, and needs as quick and complete a clean up as can be obtained. Extension of the comment period will allow more thoughtful suggestions on how this can best be accomplished. Lacking such an extension, falls upon the EPA to assure that the mandates of the Environmental Justices EO are carried out by fully setting forth the issues and corrective measures needed to assure no disproportionate impacts upon our residents.
